EX.NO:8 TESTING-TEST PLANS AND TEST CASES

Aim:
Test Plans and Test Cases and write two test cases for at least five user stories showcasing the happy path and error scenarios in Azure DevOps platform for AI-Assisted Recruitment Process Simulation and Career Guidance System.

Test Planning and Test Case Design Procedure

1. Understand Core Features of the Application

- User Signup & Login
- Resume Upload & Analysis (AI-based feedback)
- Job Role Recommendation
- Mock Interview Simulation (AI chatbot)
- Career Guidance Dashboard (skills, roadmap)
- Application Tracking & Feedback

2. Define User Interactions

Each test case simulates real user behavior:

- Signing up and logging in
- Uploading resume and getting suggestions
- Taking mock interview
- Viewing career roadmap
- Applying for recommended jobs

3. Design Happy Path Test Cases

- Validate correct system behavior under normal conditions
- Example:
    - User uploads resume → AI gives feedback
    - User completes interview → receives score

4. Design Error Path Test Cases

- Validate system robustness under invalid conditions
- Example:
    - Upload unsupported file format
    - Interview fails due to network issue

5. Break Down Steps and Expected Results

Each test case includes:

- Step-by-step actions
- Expected output
- Ensures clarity for testers & automation

6. Use Clear Naming and IDs

- TC01 – Successful Login
- TC05 – Resume Upload Success
- TC09 – Interview Failure due to Network

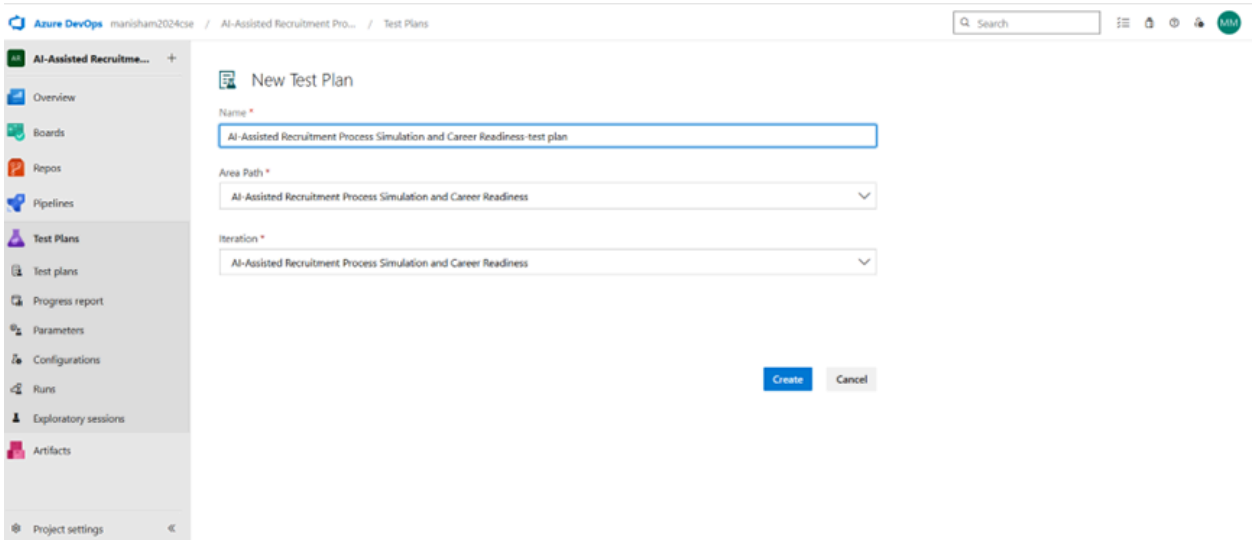
7. Separate Test Suites

- Authentication Suite
- Resume Analysis Suite
- Interview Simulation Suite
- Career Guidance Suite

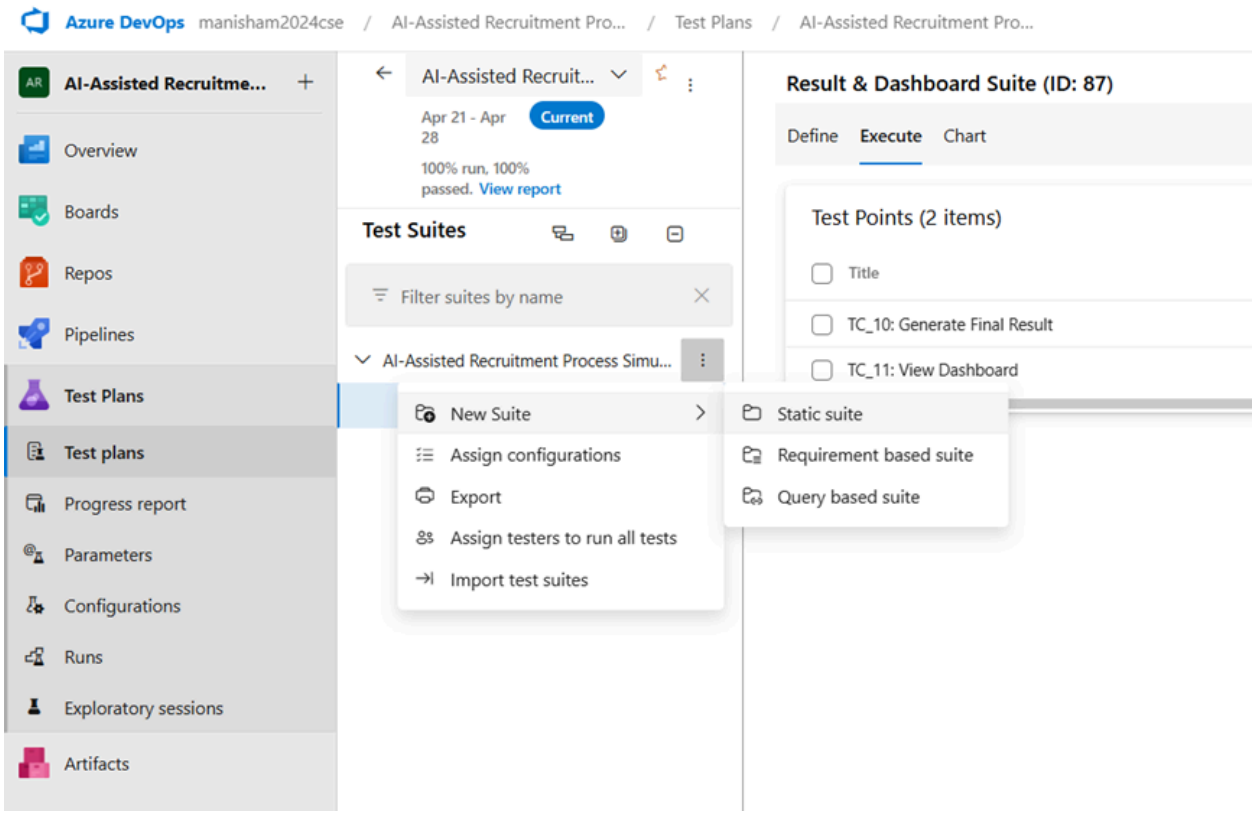
8. Prioritize and Review

- High priority: Login, Resume Upload, Interview
- Medium: Dashboard, Recommendations

1.New test plan



2.Test suite



Test Cases:
USER STORIES

- As a user, I want to sign up and log in securely so that I can access my dashboard (ID: 101).
- As a user, I need to view my uploaded resumes in one place (ID: 102).
- As a user, I should be able to upload my resume for AI analysis (ID: 103).
- As a user, I should be able to edit/update my resume details (ID: 104).
- As a user, I need to receive real-time AI feedback and suggestions (ID: 105).

Test Suites
Test Suit: TS01 – User Login (ID: 201)
1. TC01 – Successful Sign Up
Action:

- Go to the Sign-Up page
- Enter valid name, email, and password
- Click "Sign Up"

Expected Results:

- Sign-Up form is displayed
- Fields accept valid inputs
- Account is created and redirected to dashboard

Type: Happy Path

2. TC02 – Secure Login

Action:
- Go to Login page
- Enter valid email and password
- Click "Login"

Expected Results:
- Login successful
- User redirected to dashboard

Type: Happy Path

3. TC03 – Sign Up with Existing Email

Action:
- Enter already registered email
- Click "Sign Up"

Expected Results:
- Error message: "Email already registered"

Type: Error Path

4. TC04 – Login with Wrong Password

Action:
- Enter incorrect password
- Click "Login"

Expected Results:
- Error message: "Invalid credentials"

Type: Error Path

Test Suit: TS02 – View Resume Dashboard (ID: 202)

1. TC05 – View Resume List

Action:
- Login successfully
- Navigate to "My Resumes"

Expected Results:
- All uploaded resumes are displayed

Type: Happy Path

2. TC06 – Resume Loading Failure

Action:
- Turn off internet
- Open "My Resumes"

Expected Results:
- Error message: "Unable to load resumes"

Type: Error Path

Test Suit: TS03 – Resume Upload & Analysis (ID: 203)

1. TC07 – Upload Resume Successfully

Action:
- Click "Upload Resume"
- Select valid PDF/DOC file
- Click "Submit"

Expected Results:
- Resume uploaded successfully
- AI analysis report generated

Type: Happy Path

2. TC08 – Upload Invalid File

Action:
- Upload unsupported format (e.g., .txt)

Expected Results:
- Error message: "Invalid file format"

Type: Error Path

Test Suit: TS04 – Resume Editing (ID: 204)

1. TC09 – Edit Resume Successfully

Action:
- Open uploaded resume
- Edit details (skills, education)
- Click "Save"

Expected Results:
- Resume updated successfully

Type: Happy Path

2. TC10 – Save Empty Fields

Action:
- Remove mandatory fields
- Click "Save"

Expected Results:
- Error message: "Fields cannot be empty"

Type: Error Path

3. TC11 – Reorder Resume Sections

Action:
- Drag and reorder sections (skills, experience)
- Click "Save"

Expected Results:
- New order is saved successfully

Type: Happy Path

4. TC12 – Reorder Fails Due to Network

Action:
- Turn off internet
- Reorder sections
- Click "Save"

Expected Results:
- Error: "Failed to save changes. Check connection"

Type: Error Path

Test Suit: TS05 – AI Feedback & Career Suggestions (ID: 205)

1. TC13 – Generate AI Feedback

Action:
- Upload resume
- Click "Analyze Resume"

Expected Results:
- AI provides suggestions (skills, improvements, score)

Type: Happy Path

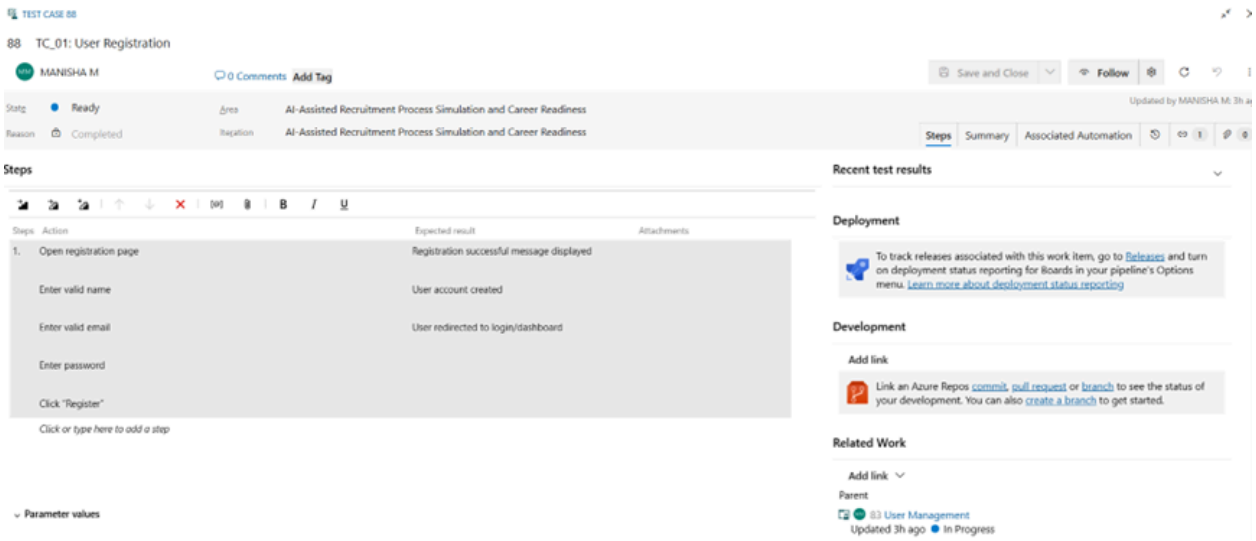
2. TC14 – Feedback Generation Failure

Action:
- Click "Analyze Resume" without uploading resume

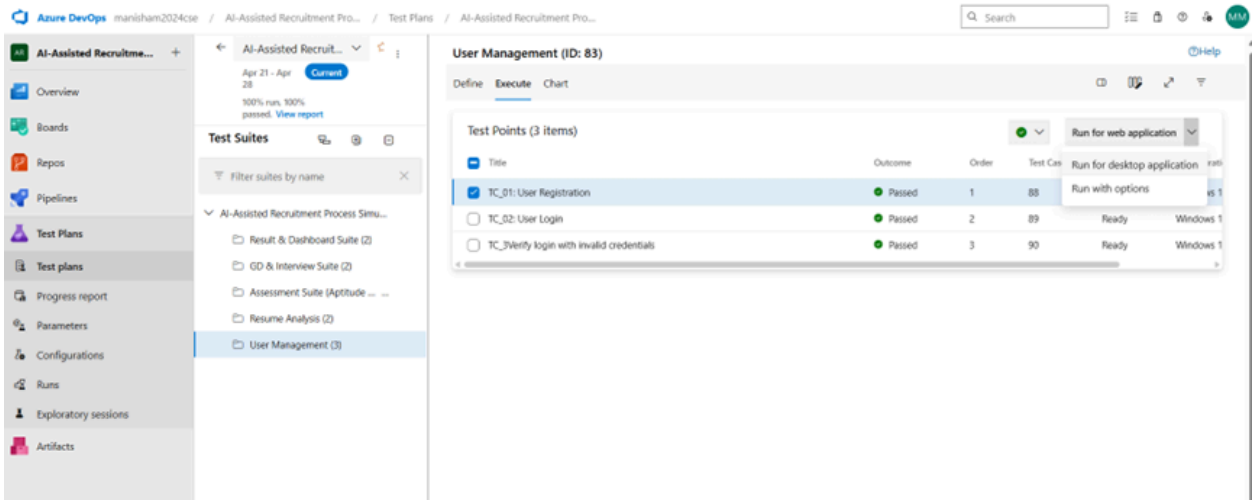
Expected Results:
- Error: "No resume found for analysis"

Type: Error Path

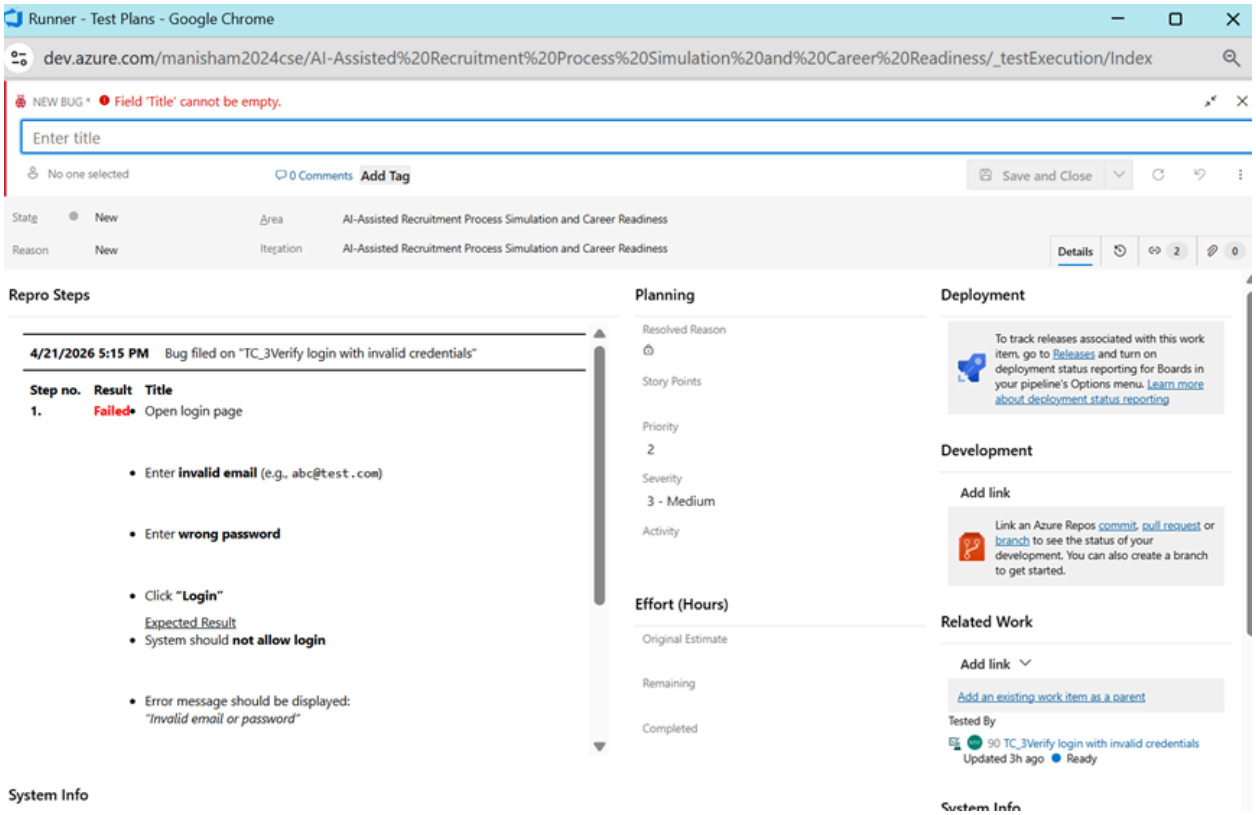
Test Cases:



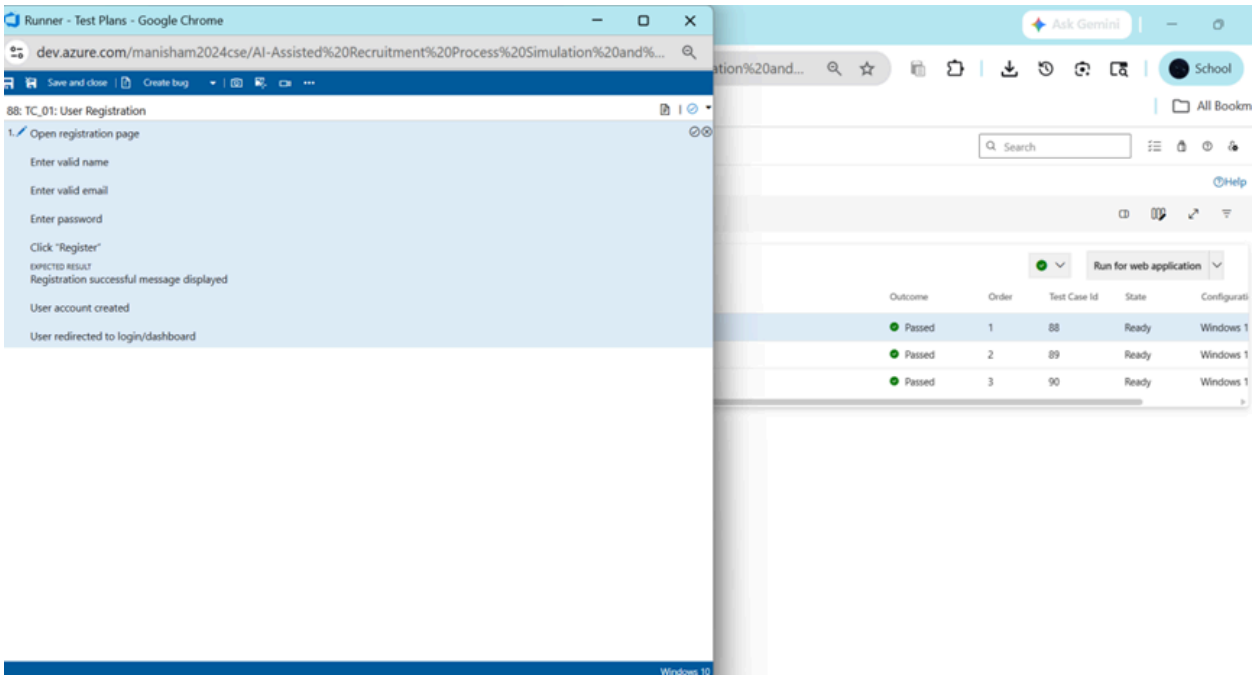
4.Installation of test



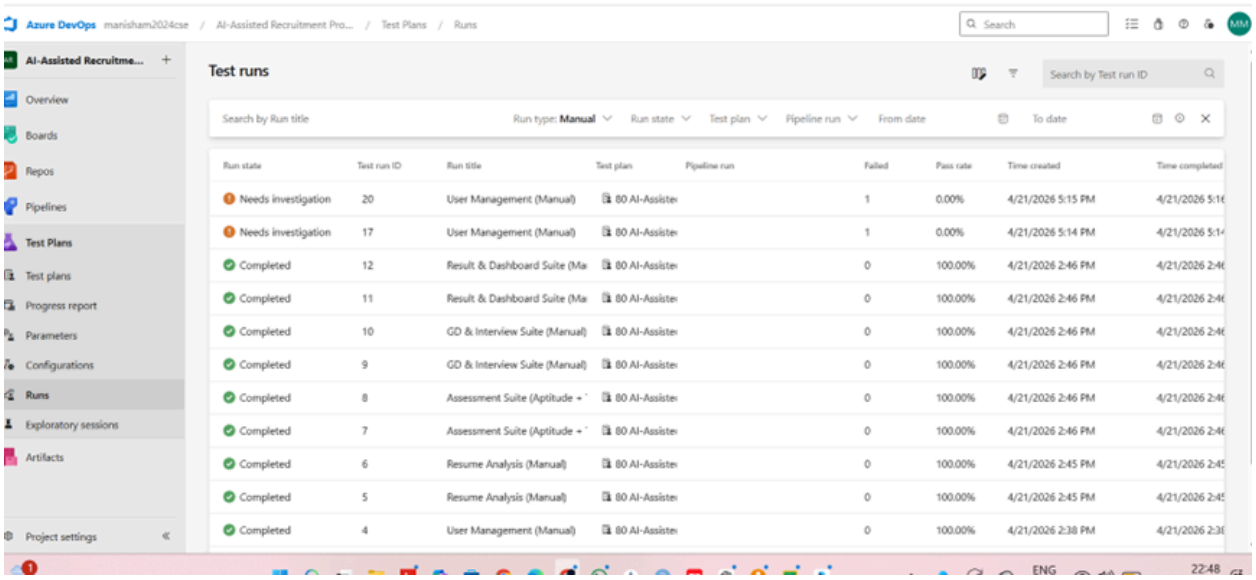
Test and feedback
Showing it as an extension:



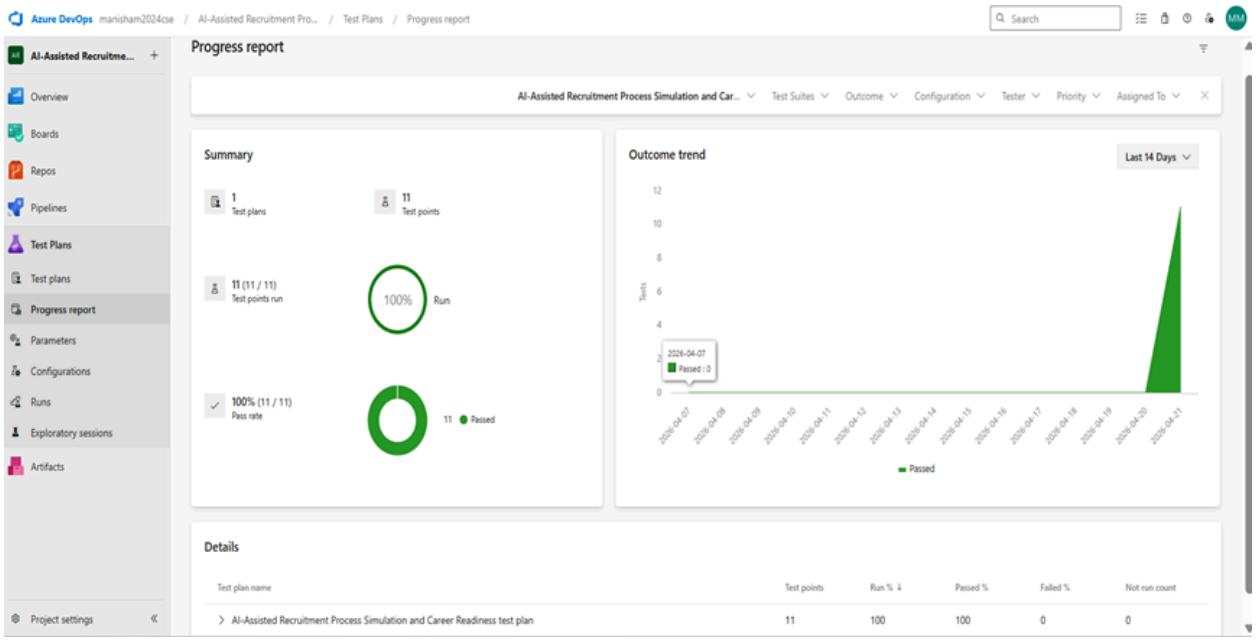
5.Running the test cases



6.Recording the test case



7.Creating the bug



Result:

The test plans and test cases for the user stories is created in Azure DevOps with Happy Path and Error Path
